ENVIRONMENTAL POLICY

It is the policy of Biocel Limited to produce and supply products, service, and professional advice of the highest quality standard, which consistently meeting the requirement of its customers, while minimizing adverse environmental effects.

Product Safety (incorporating HACCP) is central in the manufacture of all our products.

Our environmental aims

- Continually monitor legislative changes and developments and make changes to our policy and practice to ensure compliance.
- Ensure the responsible use of energy & water by conserving resources wherever possible.
- Minimize the impact of our travel by efficiently managing our transport operations.
- Conserve natural resources by re-using and recycling packaging, purchasing recycled materials where appropriate, and using recyclable packaging and other materials wherever possible.
- Endeavour to perform business electronically, to reduce paper usage.
- Be a responsible member of the local business community by contributing to environmental initiatives in the community, and to act promptly and effectively to correct any problems or incidents that might affect the environment or the health or safety of our staff, of our business neighbor's or of the inhabitants of the area.
- Utilize products that are solvent free and of low hazard to the environment when ever possible.
- Make all employees aware of this policy and their responsibilities for environmental issues.

Luke McCarthy
Managing Director
